

Task 1

Write a test plan for the website <https://tritonshoes.ru/>

- Include test cases in the test plan
- For each test case:
 - Specify priority;
 - Classify by positivity of scenarios.
- In the test plan, include a checklist for UI/UX (5 checks)
- Write a report on the test results

-

Test plan:

What to test: <https://tritonshoes.ru/>

What we will test: Shopping cart, search, registration, authorisation, checkout.

How we will test:

Types of testing: manual testing

Environment: Chrome v 113.0.5672.93

Testing is performed on: Windows 10 Home v 22H2

1	
Title - Adding item to shopping cart

Task 2

Write 4 bug reports on bugs found (or expected).

-

Bug 1.

The search is executed when only spaces are present in the form

Playback steps:

1. Go to the website <https://tritonshoes.ru>

2. On the navigation bar, click the button

3. In the field "Search Article" enter any value of space characters (for example: " ") and press Enter.

ER: The entry form should detect at the character entry stage if only spaces are entered, without any other characters, and warn the user about it.

AR: The user is redirected to the page with the message "No goods found", while in the "Search" form on the left side of the page.

Environment:

Chrome v 113.0.5672.93

Testing is running on: Windows 10 Home v 22H2

Bug 2.

Missing images in the text

Playback steps:

1. Go to <https://tritonshoes.ru>

2. Scroll to the bottom of the page and click on the link "Methods of payment" in the block "Place an order"

ER: In the second paragraph of the text under the inscription "By bank

card" in place of the inscription " (place the logo *name of the payment system*) ", instead of "name of the payment system" should be the image of the logo.

AR: In place of the image of the logo of payment systems, there is only the name of payment systems with the requirement to place their logo (a fragment of the bug in text form is highlighted in dark turquoise below, because there were problems loading a screenshot into this task).

MIR (place MIR logo)

VISA International (place VISA International logo)

Mastercard Worldwide (place the logo of Mastercard Worldwide)

Environment:

Chrome v 113.0.5672.93

Testing is running on: Windows 10 Home v 22H2

Bug 3.

There is no information on the main page about the possibility to pay by MIR card

Playback steps:

1. Go to <https://tritonshoes.ru>
2. In the middle of the bottom part of the page there is information about which cards can be used to pay for the order:

ER: The site should clearly display all relevant information about payment methods, and this data should not contradict other sections on the site

AR: The information about cards on the home page does not include the MIR card, although there is information about the possibility to pay with the MIR card in the Payment Methods.

Environment:

Chrome v 113.0.5672.93

Testing is running on: Windows 10 Home v 22H2

Bug 4.

No direct link to the VK group in the News section

Playback steps:

1. Go to <https://tritonshoes.ru>
2. Go to the "News" section, located on the topmost navigation bar of the site

ER: In the message dated 13.09.2021 to the right of the date there is a hyperlink "VK Group", which should redirect the user directly to the store's community in the social network Vkontakte.

AR: Hyperlink "Group VK" in the message dated 13.09.2021 in the "News" section of the site sends the user to the section of the site where the link to the group in VK is marked as a plain text (clicking on it will not immediately go to the group, you will need to select the link, then click on it and in the opened window select the item: "Go to the address").

Environment:

Chrome v 113.0.5672.93

Testing is running on: Windows 10 Home v 22H2
